

## COMPETITION SET SUBJECTS FOR 2024

**HUMOUR:** Funny, absurd, comical, hilarious.....humour can be portrayed and perceived in many different ways. Not all of us have the same sense of humour. The idea is that the content of your photographs should display what you (and hopefully others) see as humorous.

**FEET:** Your photographs should display two or more feet. They don't have to be human feet so that opens up the subject quite significantly.

Footwear can be included

**ARCHES:** This subject embraces not only conventional stone arches, but can include vaults, bridges, domes, spans etc. made of different materials but they must be arch shaped.

**FLOWERS:** A great subject for getting the lighting right and for displaying colours. The subject is plural so your photographs should show more than just one bloom. Leaves, stems, vases etc. can be included, but flowers must be the dominant feature.

**SUNRISE /SUNSET:** A perennial favourite which allows all levels of photographers to show what they can do.

Daybreak, first light, crack of dawn, sunup are all phrases used to describe sunrise.

Dusk, gloaming, close of day, nightfall can all be used in relation to sunset.

Whichever you wish to portray, the colour range is potentially huge. From pale pinks through bright reds to intense oranges mixed with blues and greys can provide photographers with spectacular results.
